# OVERVIEW

Most security companies today are capable of completing a job or carrying a job out with Minimal effort, which ordinarily would seem to the untrained eye as good workmanship, However it is the will to go the extra mile to service ones client to the best of one's ability that separates the truly exceptional companies from the rest.

Having said that, UNIMAX.A.D is a company driven by service excellence, where service Means doing our best at all times to ensure our clients total satisfaction in our work.

## We Offer Services to

- Business Premises (FTTB)
- MDU Builds (FTTH)
- Wireless Links
- Repairs to existing faults.
- Fault finding on existing networks.
